PVC Foamed/Solid Sheets

Handling and Storage

This document covers the handling and storage of the following PVC sheet products:

- PALIGHT®
- PALBOARD®
- PALOPAQUE™
- PALCLAD™
- PALCLEAR®

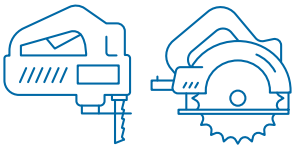

Safety

- Do not step directly on the sheets - before, during and after installation
- Work according to local safety regulations

Cutting / Sawing tools

- Table or portable circular saw with small teeth
- Jigsaw
- When sawing use high blade speed and slow feed rate

Storage

- Shorter panels should always be stacked on top
- Protect sheets with designated corners
- Tie with conventional wrapping strips

When storing panels outdoor

- Cover the stack with white opaque polyethylene film or other materials that do not absorb on conduct heat.
- Avoid covering with dark of heat-absorbing materials to prevent solar heat buildup

Packaging

- Proper packaging procedures, as well as proper storage, handling, and installation,
- will greatly support the sheets performance.
